

AUDITION INFORMATION:

Information on audition requirements including set scales, orchestral excerpts and other technical requirements can be found on our website on the audition page. Each instrument has a separate link. Sample requirements are available on our website to give prospective applicants an idea of the playing standard required for membership in BYO1.

Audition requirements will be given to an applicant for BYO1 two weeks prior to their scheduled audition to allow time for practice and consultation with their music teacher.

BYO1 applicants are also required to perform a piece of their own choice during the audition process. The audition panel may only hear part of this piece at their discretion.

BYO2 members are not required to audition. Please see membership information for BYO2 applicants.
